## Acura 27000-RDS-305 Solenoid kit

★★★★★

**USD \$326.69**

Restore your Acura to its original glory with brand-new 8DCT MDSA M4JA solenoid kit. This replacement Acura solenoid kit is directly from the manufacturer, ensuring seamless gear shifts and optimal performance, just like when it first rolled off the assembly line.

The solenoids are a crucial component in the 8DCT MDSA M4JA transmission valve body and transmission system. It controls the flow of transmission fluid and regulates the gear shifting and clutches. The solenoids work to ensure smooth and precise gear shifting.

Experience the joy of effortless gear changes and the confidence that comes with a fully restored transmission. These solenoids are designed to address common wear-and-tear issues, such as slipping, rough shifting, and increased transmission temperatures. Replacing the worn solenoids with these high quality solenoids, you're not just restoring your Acura's functionality but also preserving its value and performance.

Say goodbye to the frustrations of a worn out solenoids. The peace of mind that comes with knowing your Porsche is operating at its peak is well worth it. With these new 8DCT MDSA M4JA solenoids, you're investing in a reliable, durable, and OE-quality replacement that will keep your beloved Acura running smoothly for years to come.

These are new OEM direct replacement solenoids for the factory unit, ensuring proper fit and function. Installation of the solenoids requires removal of the oil pan and locking plates.

Please contact us with your VIN if you have any questions about fitment.
