### ALFA ROMEO 4C Pump motor 71769629

**\$464.39**

Refresh your Alfa Romeo 4C gearbox with our OEM replacement pump motor. Engineered for consistent system pressure, smooth clutch engagement, and seamless shifting, this new motor ensures optimal transmission operation. Trust in our high-quality replacement for precision and reliability. Experience seamless gear transitions and enhanced driving dynamics with our premium electric pump motor. It's essential to note that this crucial component is subject to regular wear and tear. To maintain optimal performance and longevity, we recommend replacing the motor every 5 years or 120,000 miles. By following this recommendation, you'll ensure that your Alfa Romeo 4C gearbox operates at its best for years to come. Related Part Numbers:
