Audi R8 DC Electric motor R-Tronic 086959755, 086-959-755, 86959755

USD \$273.15

Refresh the performance and reliability of your Audi R8's R-Tronic system with our premium New OEM Audi R8 transmission hydraulic pump motor kit. Engineered to exact specifications, this kit addresses a critical component prone to wear and tear, ensuring seamless operation and minimizing the risk of system failures.

Essential Wear Item: The pump motor is a vital component in the R-Tronic system, subject to regular wear and tear over time. Our OEM kit provides a reliable replacement solution, ensuring optimal functionality and preventing potential system failures.

Preventive Maintenance: Failure of the motor can lead to various shifting issues and trigger error codes, often without direct indication of the motor as the root cause.

Don't wait until shifting issues arise—invest in the longevity and reliability of your Audi R8's R-Tronic system with our new OEM motor kit. Trust in our quality craftsmanship and OEM precision to keep your vehicle operating at its best, mile after exhilarating mile.
