Audi R8 R-Tronic Hydraulic High Pressure Filter 086323167

★★★★★

USD \$103.79

Purchase the ultimate solution for your Audi R8 R-Tronic equipped transmission with our comprehensive replacement filter and seal kit. This essential kit contains everything you need to ensure optimal performance and longevity for your transmission system. This kit contains:

- High-pressure filter
- High pressure port seals

All seals have been re-engineered to meet the highest standards of quality and reliability. These seals have been redesigned to enhance their sealing profile, providing superior protection against leaks and ensuring a tight seal. What sets our Audi R8 R-Tronic filter and seal kit apart is their innovative redesign. With a focus on improving the sealing profile, these components offer enhanced performance and durability. Constructed from premium materials that surpass OEM standards, our filter and seals boast superior heat stability and chemical resistance, providing unmatched reliability in even the most demanding driving conditions. Don't settle for subpar gaskets and seals—upgrade to our replacement kit and experience the difference for yourself. Invest in quality, reliability, and peace of mind for your Audi R8's transmission system.
