Audi R8 R-Tronic Shift Valve 086927331C

USD \$382.41

This item is a new replacement Audi R8 R-Tronic shift solenoid/valve. This essential component is to ensure optimal performance and reliability in your vehicle's R-Tronic system. Enhanced Durability: With our replacement shift valve, you can say goodbye to worries about premature wear and tear. Built to withstand the rigors of daily driving, our valve is designed for long-lasting durability and consistent performance. Complete Kit: We understand the importance of convenience and efficiency when it comes to maintenance. That's why our Audi R8 R-Tronic solenoid comes complete with new o-rings and hardware, ensuring a hassle-free installation process and reliable seal for optimal performance. Upgrade your vehicle's R-Tronic system with confidence using our premium replacement clutch valve. With quality craftsmanship, enhanced durability, and comprehensive kit inclusion, it's the perfect solution for ensuring smooth and reliable operation mile after mile. There are two shift control valves on valve block. Related Part Numbers:
