BMW DCT Oil Pan and Gasket Kit 28108070791 28107842385 23018441997

CAD \$181.04

The ultimate solution for your DCT-equipped BMW's dual clutch transmission with our comprehensive replacement oil pan and gasket kit. This essential kit contains everything you need to ensure optimal performance and longevity for your transmission system.

This kit contains

- Oil pan gasket
- Oil pan with magnetic pickup and drain plug

We are using our upgraded oil pan gasket that has been re-engineered to meet the highest standards of quality and reliability. This gasket has been redesigned to enhance the sealing profile, providing superior protection against leaks and ensuring a tight seal.

What sets our gasket and oil pan apart is our innovative redesign. With a focus on improving the sealing profile, these components offer enhanced performance and durability. Constructed from premium materials that surpass OEM standards, our gasket and oil pan boast superior heat stability and chemical resistance, providing unmatched reliability in even the most demanding driving conditions.

Don't settle for subpar gaskets and oil pans — upgrade to our replacement kit and experience the difference for yourself. Invest in quality, reliability, and peace of mind for your BMW's transmission system.
