BnB Stainless Steel High Flow Downpipe for BMW M135i F40 Silvery

CAD \$642.50

This high flow downpipe is constructed from stainless steel with a 1.5 mm thickness, designed to improve exhaust flow and performance for the BMW M135i F40. An integrated heat shield helps manage under-hood temperatures, and the silvery finish provides a clean, professional appearance. Each unit is packaged in a carton for secure delivery.
