BNB Titaniumz High Flow Catalyzed Downpipe for Audi RS6/RS7 C8 4.0T

CAD \$1,287.50

This BNB Titaniumz catalyzed downpipe is crafted from SUS304 stainless steel with 2mm thickness for enhanced durability. Designed for Audi RS6/RS7 C8 2019-2023 4.0T models, it features a high flow catalyzed design with integrated catalytic heat shield pipes. The downpipe supports electronic or pneumatic valve control with remote operation for performance tuning. Customization options include silencer drum, shock absorption, and OPF modifications to suit specific requirements.

Material: SUS304 Stainless Steel

Thickness: 2 mm

Compatible Models: Audi RS6/RS7 C8 2019-2023 4.0T

Installation: Direct Replacement

Warranty: 1 Year

Condition: New

Valve Control: Electronic/Pneumatic with Remote

Application: Performance Exhaust
