BNB Titaniumz Valve Catback Exhaust System for Porsche 911 992 Titanium Alloy

CAD \$2,222.50

Crafted from high-strength titanium alloy, this valve catback exhaust system delivers a deep, aggressive tone while reducing weight. Designed specifically for the Porsche 911 992, it features a high-flow design for improved performance and includes an electronic valve with remote control for adjustable sound. The non-destructive bolt-on installation ensures a perfect fit without modifications. Backed by a 1-year warranty for peace of mind.

Material: Titanium Alloy
