BNB Valvetronic Cat-Back Exhaust System for BMW M135i F20

USD \$808.58

Crafted from T304 stainless steel with mandrel-bent tubing and polished tips, this cat-back exhaust system delivers an OEM-grade fitment and dual-mode valvetronic sound control. The direct bolt-on design reduces backpressure for measurable power gains while amplifying the BMW N55 inline-six exhaust note. Valved muffler allows switching between a quiet cruise and a full-throttle roar.

Material: T304 Stainless Steel

Thickness: 1.5 mm

Type: Cat-Back Exhaust System

Valve Control: Valvetronic (Electronic)

Fitment: BMW M135i F20 N55 3.0T
