E46 M3 SMG II Clutch Slave Cylinder Seal Kit 21522229841

CAD \$188.90

The MLR E46 SMG Slave Cylinder Seal Kit is an advanced replacement solution for the SMG II clutch slave cylinder.

Featuring new fully machined piston's and seals, our kit represents the pinnacle of precision engineering and quality craftsmanship. Each component is crafted with utmost attention to detail, ensuring optimal functionality and reliability.

The CNC machined piston delivers superior durability and performance. Coupled with the new seals we can ensure enhanced sealing properties. With our kit, you can trust that your clutch slave cylinder will operate at peak efficiency, delivering smooth and responsive clutch engagement every time.

Refresh your E46 SMG slave cylinder with confidence, knowing that our clutch slave cylinder seal kit offers unmatched quality, performance, and reliability. Experience the difference for yourself and elevate your driving experience to new heights.

Included in the kit are:

- Custom molded replacement seals
- 2 x high pressure pistons
- Custom molded dust boot
- External locking washer

For following models:

BMW M3 1999-2006 E46; W/SMG TRANSMISSION 6 speed

During installation, you will need to reinsert the OEM magnet and circlip to ensure proper functioning of the clutch slave cylinder. Professional installation is recommended.
