E46 M3 SMG PUMP WIRING HARNESS

★★★★★

CAD \$228.69

New E46 M3 SMG pump wiring harness is a component designed for the BMW E46 M3 model with the Sequential Manual Gearbox (SMG) system. The SMG pump wiring harness connects the SMG hydraulic pump to the car's electronic control module (ECM), allowing for communication and control of the SMG system.

This wiring harness is constructed from high-quality materials and is engineered to meet or exceed OEM specifications. It features the correct connectors, wiring, and length to ensure a proper fit and function. The wiring harness is designed to resist damage from heat, vibration, and other environmental factors that can cause premature wear and failure.

The E46 M3 SMG pump wiring harness is an essential component for the proper functioning of the SMG system. It is an ideal replacement for a damaged or worn-out harness and is recommended for use during SMG pump replacements or upgrades. The harness is easy to install and is a cost-effective solution for ensuring the longevity and reliability of the SMG system in your BMW E46 M3.

No special tools needed.

Individual repair kits also available.
