F1 Hydraulic Pump Motor Ferrari 360, F430, Challenge Strada 213264, 247223, 178757, 247723M

CAD \$1,100.37

Our custom designed F1 Hydraulic pump motor an improved design with higher output and will provide a quicker system prime . Designed in house to provide over 60% more output for superior performance and longer life. We offer motor in two versions:

- **80.301 - UPRATED Motor Kit**
- **80.301.X - UPRATED Motor with New Gear Pump Section**

This F1 Hydraulic pump motor is physically larger than OEM and might require slight modification to the mounting bracket for clearance in some models. For F430, F430 Spyder and F430 Scuderia there are two motor versions depending on production date. if you are not sure about which kit your need please contact us to validate fitment . The F1 Hydraulic Pump Motor is designed to provide a reliable and efficient source of power to the hydraulic system. It is constructed using high-quality materials and is built to withstand the demands of high-performance driving. Related Part Numbers:
