Ferrari 213264 F1 Transmission pump 213264M 247223

CAD \$762.30

Brand new OEM Ferrari F1 Transmission Pump Replacement, designed to uphold the highest standards of performance and reliability. This comprehensive kit includes both the pump and motor, ensuring a complete solution for your transmission system needs. Compatible with the F360 and select F430 models, our replacement pump offers seamless integration and precise functionality.

It's important to note that there are two different Ferrari F1 transmission pump motors versions available. Depending on the production date of your vehicle you may have the other version. To ensure the perfect fit for your Ferrari, please don't hesitate to reach out to our team for personalized assistance and confirmation on fitment. We're here to provide expert guidance and support every step of the way, so you can enjoy peace of mind knowing you've chosen the right solution for your vehicle's needs.

90% of pressure failures can be a result of electric motor or accumulator wear. Both the electric motor and accumulator are regular wear items and eventually wear out. We suggest changing them as part of a regular maintenance cycle.

Replacement of electric relay is highly recommended anytime there is a motor failure.
