Ferrari 355 F1 Gearbox power unit pump motor 177686

★★★★★

USD \$371.48

Re-engineered Ferrari 355 F1 pump motor boasts superior output and quicker system priming time, offering heightened performance compared to standard models. Designed as a direct bolt-on replacement, this motor seamlessly connects to your original wiring connector, ensuring effortless installation. This motor serves as a direct replacement for the OEM part number 177686, offering compatibility and ease of installation. With our upgraded pump motor, you can experience enhanced performance and peace of mind on every drive. It's important to note that this motor is not available from Ferrari and has been discontinued, making it a rare find. By investing in our re-engineered pump motor, you gain access to a high-quality replacement solution that ensures the continued operation of your Ferrari 355 F1 transmission system.
