Ferrari Hydraulic Actuator 247224

CAD \$5,405.40

This is a rebuilt Ferrari hydraulic actuator. Crafted with precision using premium aircraft-grade materials, this rebuilt actuator boasts precise dimensions and tight tolerances for exceptional performance.

Comprehensive service includes:

- Full disassembly of all components.
- Intensive cleaning to remove buildup and contaminants.
- Thorough inspection and replacement of damaged components.
- Rigorous testing of all solenoids, with replacements provided if needed.
- Application of new seals to all components for enhanced durability.

Not stopping there, we've gone the extra mile to enhance durability and reliability. The seal section has been redesigned and fortified, and the selector shaft and shaft bearings have been reinforced. Plus, we've replaced the end cap with a brand-new CNC machined aluminum cap for added strength and resilience.

Please note that a core fee is included in price and will be refunded once we receive your old unit back.
