BNB Titaniumz Stainless Steel Catback Straight Pipe for Ferrari 360 3.6L V8

CAD \$1,587.50

This T304 stainless steel catback exhaust system is designed specifically for the Ferrari 360 3.6L V8, featuring a non-valved constant high-flow design that reduces backpressure for improved performance. The direct bolt-on installation uses factory mounting points for a straightforward fit without modifications. The mirror-polished finish provides corrosion resistance and a premium appearance, while the 1.5 mm thickness ensures durability. The system delivers a deeper, more defined V8 tone suitable for daily driving.

Car Fitment: Ferrari
Model: 360
Engine: 3.6L V8
Type: Catback Exhaust (Non-Valved)
Material: T304 Stainless Steel
Thickness: 1.5 mm
Finish: Mirror Polished
