Lamborghini E-Gear ISR Spacer Plate Kit 470398008D 47039189

CAD \$942.95

We have seen the issues related to the Lamborghini E-Gear ISR (independent shift rod) and we believe we have engineered a more reliable solution. Our latest innovation is a new spacer plate and gasket kit for your E-Gear transmission system. Meticulously engineered to redefine performance and durability, this essential enhancement sets a new standard for your prized vehicle. At the heart of this kit lies a fusion of cutting-edge technology and uncompromising craftsmanship. Each component is meticulously crafted to exacting standards, ensuring seamless integration and optimal functionality. Designed to withstand the rigours of high-performance driving, our kit guarantees unrivalled durability, providing you with peace of mind mile after exhilarating mile. Beyond its impressive performance and durability, our spacer plate and gasket kit for the Lamborghini E-Gear transmission represents a commitment to innovation and excellence. Backed by our unwavering dedication to quality and customer satisfaction. Please note that the spacer plate and gasket kit is located between the hydraulic pump and main hydraulic unit.
