## Lamborghini Gallardo electric pump kit 086901137, 086901137A

★★★★★

**USD \$763.72**

Custom-engineered Lamborghini Gallardo E-Gear Pump. This innovative design sets a new standard for excellence in E-Gear transmission system performance. With over 60% more output compared to standard pumps, our solution ensures superior hydraulic pressure delivery for smoother gear shifts and more responsive clutch engagement. Built for longevity and reliability, our pump is engineered to withstand the demands of high-performance driving, guaranteeing consistent operation mile after mile. Upgrade your Lamborghini Gallardo's transmission system with confidence using our custom-engineered E-Gear Pump and experience a new level of driving excellence.

We offer the motor in two versions,

- **80.301-1 UPRATED Motor Kit and the**
- **80.301.X-1 UPRATED Motor with a new gear pump section.**

Related Part Numbers:

- 086901137, 86901137
- 086901137A, 86901137A

This motor design is physically taller than the OEM version and may require slight modifications to the mounting bracket for clearance on some models.
