Maserati F1 Electric Pump 214267, 248083, 248087

CAD \$1,731.63

This is a **new and upgraded Maserati F1/MC-Shift electric pump kit** for GranTurismo and GranCabrio models! **90% of F1/MC-Shift transmission pressure build failures can be attributed to electric motor or accumulator wear/malfunction. Both electric motor and accumulator should be considered regular wear items and replaced periodically to maintain optimum system functionality.**

This kit is a direct replacement to the OEM pump and includes:

- New OEM pump
- New and improved CNC machined aluminum block with extra cooling capacity
- New and improved motor
- Limited lifetime warranty

Upgrade your Maserati F1/MC-Shift system with our newly reengineered Maserati F1 electric pump motor! Experience the next level of performance with our custom engineered pump motor. Meticulously designed with an impressive 20% increase in performance compared to the OEM motor. One of the standout features of our upgraded pump motor is the machined aluminum heat sink, strategically integrated to keep your system running cooler for extended periods. Whether you're cruising on the road or pushing the limits on the track, our unit ensures optimal temperature regulation at all times, eliminating any concerns about overheating.

Upgrade your Maserati F1 transmission today and unleash its full potential with our reengineered pump motor. Don't settle for anything less than extraordinary performance.
