Mitsubishi Galant VR4 AYC/ACD Pump Relocation Hoses

CAD \$188.90

We have listened to our customers and developed our own Mitsubishi Galant VR4 AYC/ACD pump relocation hoses to move the pump to the trunk/boot out of harms way. It is a well known fact in the Mitsubishi community that the factory placement of the AYC/ACD pump is not optimal due to it being in direct contact with the outside elements. Failure of the pump can be a result of water ingress, leading to internal hardware corrosion.

Included in the kit are **new** :

- Braided stainless steel hydraulic lines
- Stainless steel hardware

This kit is designed to fit the following Mitsubishi's:

Model	From Year	To Year
Lancer	2008	2015

Note: This AYC/ACD pump relocation kit is designed for the Mitsubishi Galant VR4 models relocating pump takes it away from external elements and extends pump life. The AYC/ACD pump relocation hoses are is designed for ACD and AYC pumps with part numbers:

- 3520A071
- 3520A066
- 3520A072
- 3520A045
- 3520A066
- ACD pump
- AYC pump
