## SMG II Gear pump inner seal kit

★★★★★

**CAD \$125.94**

**NEW** replacement SMG seal kit for gear pump.

Revamp your BMW's performance with the SMG II Gear pump inner seal kit, designed to address vital components in your vehicle's hydraulic system. Crafted with precision and engineered to OEM specifications, this kit ensures optimal functionality, addressing leaks and maintaining the efficiency of your SMG (Sequential Manual Gearbox). Compatible with a range of BMW models, including the M3, M5, and more, this seal kit guarantees a seamless fit and peak performance.

Replace worn/cracked seals causing loss of pressure codes.

Worn seal will cause increased motor on time and slow pressure build up.

These seals are 100% viton which we use in our SMG rebuilds.

Kit Includes all seals in lower high pressure gear pump

- 2 inner pump gear seals
- 1 high pressure output o-ring
- 1 housing snout o-ring

Discover the high-performance SMG II Gear Pump Inner Seal Kit, designed to ensure optimal functioning and durability in your BMW vehicle. This kit is expertly crafted to maintain the efficiency of the SMG (Sequential Manual Gearbox), a hallmark of precision engineering in BMW models.

**100% viton to handle higher temp range than OEM black type seals**

**See our other auctions for complete seal kits for SMG pump.**
