We are now offering options for your BMW E46 M3 SMG II pump. All of our pump options include a new electric motor designed in house. All of our options offer superior durability and resistance to whatever the road throws your way. Elevate your E46 M3 SMG driving experience to unprecedented heights.

Model	From Year	To Year
BMW M3	2000	2006
BMW M3 CSL	2000	2006

Our E46 M3 SMG II pump includes the following:

- Inner gear pump
- New and improved electric motor
- New temperature sensor
- New pressure sensor
- New o-rings and seals throughout the entire assembly
- Used BMW accumulator, new BMW accumulator or an upgraded accumulator
- Used reservoir or a new upgraded aluminum reservoir to facilitate optimal cooling performance
- Tested solenoids
- Bench tested for pressure retention and functionality
- New SMG II relay

A core fee of \$250 USD has been added to the pricing. Upon return of your old unit, we will refund the core fee. Our E46 M3 SMG II pump is warrantied and as part of this coverage it is mandatory that you change the relay and 40A fuse responsible for turning the pump on and off. If you have previously had a failure with the motor it is important that you change the relay, not doing so could cause erratic switching on/off times of pump and lead to damage of new components. All customers who purchase this rebuild can benefit from a one year warranty and lifetime technical support. Related Part Numbers
