Toyota/Lexus AHC (Active Height Control) Seal kit 48910-60010, 48910-60011, 48910-60012

★★★★★

CAD \$133.80

NEW replacement Toyota/Lexus AHC seal kit.

Revamp your Toyota/Lexus ride height control with a new seal kit to address the vital components in your vehicle's hydraulic system. Crafted with precision and engineered to OEM specifications, this kit ensures optimal functionality, addressing leaks and maintaining the efficiency of your AHC system. Compatible with a range of Toyota and Lexus models, including the Land Cruiser and LX470. This seal kit guarantees a seamless fit and peak performance.

Model	From Year	To Year
Lexus LX470	1998	2007
Toyota Land Cruiser	1998	2007

Worn seal will cause increased motor on time and slow pressure build up.

These seals we use are 100% viton to handle a higher temperature range as compared to the OEM seals.

Kit Includes all seals in lower high pressure gear pump

- Gear pump seals
- Oil tank seal
- Pressure sensor seal
- High pressure pump output seal

Discover the high-performance Lexus/Toyota AHC seal kit, designed to ensure optimal functioning and durability in your Lexus/Toyota vehicle. This kit is expertly crafted to maintain the efficiency of the AHC system, a hallmark of precision engineering in Toyota/Lexus models.

We also sell the complete rebuilt assembly. Please see [here](#).
