## Transmission System Pressure Gauge 100BAR

★★★★★

**CAD \$304.92**

We have designed this pressure gauge to allow live monitoring of gearbox system. This gauge will allow you to monitor system pressure during all driving conditions. Pressure related issues are typically masked within other problem codes in system and could lead to parts being replaced that are still in working condition.

Gauge is LED backlit and is 5 wire connection

1. +12V ignition
2. -12V Ground
3. Signal pressure sensor
4. +12v illumination(optional)
